

Hey, Explorer!

A little birdie told us that you are planning a trip to the Las Odkrywców! That's a really great idea. You just have to make sure you are well prepared for your visit. Below you will find a handful of practical information.

1. Check the weather. You can find shelter here in the event of rain, wind or thunder. We will even have food and beverages available. However, it's better to not waste the day watching our forest through the window.
2. Does the weather look good? Great. Now make sure to wear comfortable clothes. Wear sports shoes, higher socks and a head covering. Consider bringing a change of clothes as having fun sometimes results in getting a bit messy and wet.
3. Don't forget that the forest is home to many bugs. Bring some kind of insect repellent. If you don't have any at home, don't worry, you can buy some here in our shop.
4. Remember to follow proper forest etiquette: don't litter and don't destroy the ant hills, nests and lairs of the various animals. Don't step on mushrooms and don't break tree branches. Take memories with you, but leave the rest of everything in the forest.
5. A big smile and lots of energy are key! You will need it to explore all of the attractions in our forest.

So? Will you see you in the Explorers' Forest?
